

## StoryO™ Bug Fixes and Feature Changes

### 1.0.1

1. [BUG] Version 1.0.0 gave an error when trying to load saved project files. Although they still loaded, the error appeared. This has been fixed.
2. [BUG] Newly created questions in the Outline module were not saved in the Project Save file. This has been fixed.
3. [BUG] Move Index Card to Another Sequence - fixed Window height and width for Windows, was cropping off screen.
4. [BUG] Field Behavior: "Character Name" on Index Card was a calc that allowed to be entered in Browse mode. Changed to "Do not allow to be entered".
5. [BUG] Mac Only: On Move Index Card window, the "Cancel" button would resize the Edit Card screen. This is now fixed.
6. [ENHANCEMENT] Added a Manual Save option when saving. If an error occurs when saving a project file a "failsafe" method can be used to save your project.
